EDUCATION

B.Tech — CSE (AI & ML)

Vaageswari College of Engineering

Expected Graduation: 2027

CGPA: 8.22

SKILLS

HTML

CSS

JavaScript

Python

SQL

MySQL

Git & VS Code

CERTIFICATIONS

Thiranex Certificate

ACHIEVEMENTS

Hackathons & college technical fests

AI & Machine Learning Student

Aspiring AI & ML engineer with hands-on experience building and deploying full-stack web projects. Passionate about turning ideas into working, polished products — from backend logic to responsive, animated front-end design.

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive multi-page portfolio using HTML, CSS, and JavaScript with custom CSS animations and interactive UI elements.
- Deployed live using GitHub Pages, resolving cross-platform path and case-sensitivity issues during deployment.

Django Web Application

- Built a web application using the Django framework, integrating backend logic with a structured front-end interface.

Spam/Ham Message Classifier (AI/ML)

- Built a text classification system using Python and scikit-learn, implementing TF-IDF feature extraction and a Naive Bayes classifier to detect spam messages.
- Developed a Flask web interface allowing live, real-time predictions through a browser.

Handwritten Digit Classifier (AI/ML)

- Built an image classification model using scikit-learn and a Support Vector Machine to recognize handwritten digits, achieving 99% accuracy on unseen test data.

AI Portfolio Assistant Chatbot

- Built an AI-powered chatbot using Python, scikit-learn, and Flask, applying TF-IDF and cosine similarity for natural language question-matching.

TOOLS & TECHNOLOGIES

MySQL, Visual Studio Code, Git, GitHub Pages
